

Abdominal aorta

Coeliac trunk

Left gastric artery (Smallest branch)

- 1- Esophageal branches
- 2- Gastric branches

Common hepatic artery (Medium branch)

- 1- Right gastric artery
- 2- Gastroduodenal artery :
 - a- Right gastroepiploic artery
 - b- Superior pancreaticoduodenal artery
- 3- Supraduodenal artery
- 4- Left terminal hepatic branch
- 5- Right terminal hepatic branch
- 6- Cystic artery

Splenic artery (Largest branch)

- 1- Pancreatic branches
- 2- Short gastric branches
- 3- Left gastroepiploic artery
- 4- Terminal splenic branches
(5 to 6 branches)

- Left gastric artery anastomose with right gastric artery
- Right gastroepiploic artery anastomose with left gastroepiploic artery
- Superior pancreaticoduodenal artery anastomose with inferior pancreaticoduodenal artery
